J. Burns (absent)

J. Dispenza (on temporary suspension of membership)

M. Andrews-Conrad (absent)

J. Moore (present)

J. Nuss (present)

R. Johnson (present)

T. Box (absent)

W. Bradley (present)

- **Review updated timelines for committee objectives**

The group reviewed the objectives by item.

- Objective #1: J. Nuss explained that there will a presentation to the larger body in June reviewing service delivery data.
- Obj #2: C. Crause discussed the work product of the gender language group revisiting the language used for priority populations that was sent to the Epi/NA work group for consideration. J. Nuss said that the committee is reviewing the suggestions and that recommended changes approved by the committee would be presented and discussed with the full IHIPC at the August meeting.
- Obj #3: J. Nuss reported that she will send C. Hicks' last year's Regional Gap Analysis presentation for the group to review. That presentation describes how the gap analysis of prevention services provided in comparison to the epidemic are used to determine how regional prevention funding and scopes are determined and how the funds will be distributed in the upcoming grant year.
- Obj #4: J. Nuss reported that the LRAV committee met prior and discussed the I&S Guidance. The CDC will not be recommending any new interventions but there will be a focus on providing prevention services remotely due to COVID. Remote guidance and examples of best practices may be included in the

I&S Guidance update. LRAV discuss the need to focus on common interventions that agencies in Illinois use and C. Crause asked that we look at interventions that agencies could be trained on in the upcoming year. J. Nuss suggested that the Primary Prevention and LRAV subcommittees meet jointly in July and maybe August to discuss I&S Guidance recommendations. We will work to find a good time to meet.

- Obj #5: The Ryan White Client Satisfaction Survey is still in progress.
- Obj #6: There was discussion to work on something concrete to address this objective. J. Nuss suggested that we form a work group to look at being more proactive in anti-racist service delivery and on-going training. L. Choat and D. Carter agreed to sit on this work group. The work group formation will be opened up to the larger IHIPC group. J. Nuss suggested this topic be put on the agenda of the July meeting. She also recommended J. Burns be on the workgroup since she is responsible for curriculum development and training of our HIV service providers.

- **Review 2020 Interventions & Services Guidance and Discuss Needed Updates**
 - C. Crause will send out an email to Primary Prevention members to begin a list of suggestions related to I&S guidance for discuss at the meeting.
 - J. Nuss will send out the Regional Prevention Services Gap Analysis presentation from last year to members. After you review the presentation, you can send J. Nuss or C. Crause recommendations of things you might want added or presented differently.
- **Adjourn**
